DETAILED ACTION

1. Applicant's response filed on 7/7/2006 has been entered and none of the claims are amended, added or deleted. In this Office Action, claims 23-25 are pending and they are renumbered as 1-3 for allowance.

Reasons for allowance

1. The following is an examiner's statement of reasons for allowance:
 - Prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claim 23. The prior art of record fails to teach or suggest "setting a flag to indicate that the new data set is available" and "running a first search process searching the old data set." as recited in independent claim 23.
 - Applicant cancelled claims 1-8 in response to Final Office Action filed on 5/23/2006 and remaining claims were allowable claims. In response, Advisory action mailed on 6/13/2006 and stated as the possible rejection of Provisional Double Patenting.
 - Applicant's argument stated in the Response to Advisory Action filed on 7/07/2006, page 1, paragraph two, as "As discussed, MPEP 804(I)(B)(2) states 'If a provisional statutory double patenting rejection is the only

rejection remaining in one of the application... In this case, provisional double patenting rejection raised in the Advisory Action is the only rejection remaining in the above application. The second application mentioned in the Advisory Action, continuation application 11/368,774 is a later filed application and has not yet been examined." The argument is persuasive and valid.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
